HEALTH SERVICES (5.18)

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District’s health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

The District shall develop an age-appropriate seizure education program for the District’s students consistent with training programs and guidelines developed by the Epilepsy Foundation of America.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules Chapter Five: Delegation of Nursing Care.

Annually, the information reported in the Division of Elementary and Secondary Education Health Services Survey shall be provided to the Board.
