Windows 11 - Pin Application to the Start or Taskbar

If an application is frequently used, consider adding a shortcut to the start menu or the taskbar to save searching for or navigating to it.

To get started, click the Windows icon and type in the application’s name. In this example, we will use the calculator app.

Pin to Start places a shortcut on the start menu.

Pin to taskbar places a shortcut on the taskbar at the bottom of the screen.
