

# Grammarly Extension

Grammarly is a free extension for Chrome and other web browsers. It is a powerful tool that checks for spelling, punctuation, and grammar mistakes.

To install Grammarly open the Chrome web browser and click this link:

<https://chrome.google.com/webstore/detail/grammarly-grammar-checker/kbfnbcaeplbcioakkpcpgfkobkghlhen?hl=en-US>

Click the Add to Chrome button and follow the prompts.

(It also works with Safari, Firefox, and Edge.)

Once installed, it will proofread your writing in Chrome as you type. It works automatically in Gmail, Google Docs, and many other applications. It currently does *not* work in Google Sheets or Slides. Anything identified as suspicious will be underlined in red. This example has a capitalization error, an incorrect word, and missing punctuation. Grammarly will display a total of potential errors at the bottom right of the screen.

This is how grammarly can work for your.  
Thank you Steven!

To clear the potential errors click on the underlined word or sentence and either accept the change recommended or choose “Dismiss” to ignore the suggestion. Choose “Add to dictionary” for uncommon words that are correct, but identified as an issue. ie: eSchool

This is how grammarly can work for your.  
Thank yo

Change the capitalization  
**Grammarly**  
+ Add to dictionary  
Dismiss  
See more in Grammarly

Over time Grammarly will send reports by email that indicate your productivity, mastery, vocabulary, and tone. Not life-changing but fun to look at!
